GRUPPO FRANCESCHINO LORIS IS AN ITALIAN
WOODEN HANDLES MANUFACTURER COMPANY,
WITH A STRONG ARTISAN TRADITION AND
ESTABLISHED IN 1968.

We produce all type of wooden handles for garden-
ing, agricultural and building industries' tools and
all our production is totally on-demand.

We are based in Gemona del Friuli, in the north-east of
Italy, not far from the border with Austria and Slovenia.

In over 40 years of activity we have developed a wide
range of products always focusing on high quality level.

At the present we have gained a monthly capacity
production of approx. 300.000 pieces and we serve

clients in more than 10 different countries all over the
world. The management is focused on customer

satisfaction and the factory is highly mechanized –

the quality of our handles and the high level of

customization make our company a leader in its

market!

WE ARE DIRECT PRODUCERS OF ALL OUR HANDLES AND ALL OUR PRODUCTS ARE PROUDLY MADE IN ITALY!

- We select all the timber we need, starting for the logs of ash and beech wood, we saw them and then we dry the boards naturally at open air.
- We check the wood before and after starting the production; humidity has to be restrained in-between 16 to 18% and all the process is subjected to severe quality control from the beginning till the end just before shipping.
- We give our clients the best possible assistance with eventual paperwork needed and keep them informed about order status or any special demand may arise.
- Upon request we also ship some samples of our products for testing quality and or dimensions via international courier.
